Financial Assistance at The Savannah Country Day School

The Savannah Country Day School’s financial aid mission is to assist qualified students to enroll who could not otherwise afford to attend our school. On average more than 20% of our students (Junior Kindergarten through twelfth grade) receive some level of financial aid. The average grant ranges between $7,000 - $12,000.

Many families mistakenly believe they would not qualify for financial aid, however, there is no specific income level at which a family is no longer eligible. Eligibility for financial assistance is based on many factors so you should investigate the possibility of receiving financial aid if you feel you cannot pay all of the costs yourself. Some factors taken into consideration in the evaluation of your financial aid application are family size, number of children in tuition paying schools, annual household expenses and total income.

Financial aid at The Savannah Country Day School is need based. A family’s need is defined as the difference between tuition and a family’s ability to pay these expenses. We require families to complete an application, the Parents’ Financial Statement (PFS), on a yearly basis through School and Student Services (SSS) to determine your ability to contribute to educational expenses. Families who demonstrate financial need may be provided with a grant to lower the amount you pay at The Savannah Country Day School.

To complete the Parents’ Financial Statement, go to the SSS Family Portal https://sssbynais.force.com/familyportal. Our school code is 7150.

Each year, the SSS Family Portal opens on October 1 and the deadline is February 15th.

For additional information, we encourage you to contact Terri Barfield, Director of Admissions and Financial Aid at barfield@savcds.org or (912) 961-8806.
