

TTL B: ACTION 2

Alice, Bob, Charlie, and David have all been invited to a party.

Charlie says that he will go to the party if (and only if) Alice **and** Bob are going to the party. David says that he will go to the party if (and only if) Alice **or** Bob is going to the party. **If Alice decides to go to the party but Bob decides not to go to the party, which is true?**

- A. Charlie and David both go to the party.
- B. Charlie goes to the party, but David does not.
- C. Charlie does not go to the party, but David does.
- D. Charlie and David both do not go to the party.
