REIGNITE UPDATE - OCTOBER 8, 2021

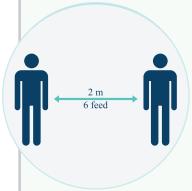
SCREENING

- All staff and students have been trained on COVID-19 safety protocols
- Faculty, staff and parents will complete pre-screen daily wellness checks via the School Pass app, reporting COVID-19 symptoms and other wellness concerns
- Faculty and staff will be on alert for signs of illness and check temperature as needed
- Visitors will be screened for COVID-19 symptoms

CLEANING

- Air filtration system with 3 stage H13, True HEPA Filter and Activated Carbon Filter used in each learning space
- Daily use of electrostatic sprayers which is shown to be most effective in sanitizing surfaces
- High traffic areas and learning spaces cleaned and disinfected daily
- Cafeteria cleaned and disinfected after each group and thoroughly disinfected each night
- Students and staff must wash hands or hand-sanitize throughout the day
- Hand sanitizer is available at every entrance and in every classroom

IN BETWEENING



- **Face coverings are strongly recommended** indoors but remain optional for students, faculty and staff
- Signage will be across campus with safety precaution reminders
- All students recommended to bring their own water bottle

QUARANTINE

- Someone who has had direct exposure and is **asymptomatic** will be quarantined for 7 days (A PCR test is recommended between days 5 and 7)
- Call school nurse the day before returning to school
- Someone who has had **direct exposure** and has **symptoms** will be quarantined 14 days and symptoms must have improved before returning to school
- Any individual with a positive case will have to meet the following criteria before returning to campus:
    - At least 24 hours have passed since last fever (100+) without the use of fever reducing medications
    - Your symptoms have improved
    - You have a doctors note for clearance, or 10 days have passed since symptoms first appeared
    - You have spoken to the school nurse within 48 hours of return
- **If you have been vaccinated or have tested positive and are asymptomatic, you may avoid quarantine by providing documentation from your doctor**
