

# Proyectos de arte

Spanish 3, Honors Spanish 3, Spanish 4

Students in Dr. Radpay's Spanish classes were given the task to create an original piece of art or re-create a painting by an artist from a Spanish-speaking country, then write a reflection of their work. The art could include songs, paintings, short stories, etc. The slides with only one piece of art are the students' original creations.

"I am blown away by how talented our students are! This is always my favorite project of the year because it gives students creative freedom to express themselves while still applying the vocabulary and grammar they have learned throughout the semester." -DR
