Kinder-Stars

This Kindergarten-friendly program takes our youngest campers on daily themed adventures. With caring and dedicated staff, campers enjoy a variety of activities such as arts and crafts, modified sports, scavenger hunts, nature walks, and story-time. Campers participate in water play instead of recreational swim offered to our older campers. Water play includes sprinklers, mini pools, and lots of water toys. The fun is as unlimited as their energy levels!

Available in weeks 1-7

(Capacity - 16)

One-der Kids

Campers entering Grade 1 in September who prefer Multi-Sport programs activities instead of Kinder-Stars can register for our One-der Kids group. These campers will have arts and crafts, as well as modified sports games and activities. Campers participate in water play instead of recreational swim offered to our older campers. Water play includes sprinklers, mini pools, and lots of water toys.

Available in weeks 1-7

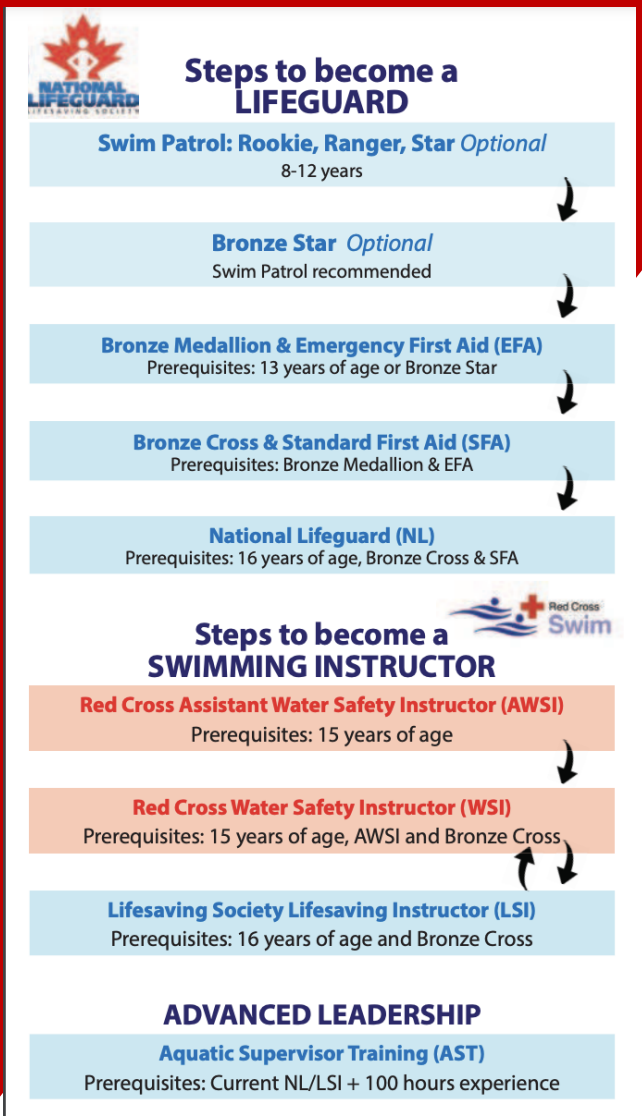
(Capacity - 18)

Leaders-In-Training (LIT)

The two-week LIT program is offered to campers entering Grades 9 & 10. After registering, candidates will be emailed an application form in the spring. Successful applicants will be notified of their acceptance via email.

This popular two-week program allows campers to develop their leadership skills and potential in a variety of our camp's programs. LIT participants will spend the first week of the program in class learning the characteristics and responsibilities of being a leader, as well as helping to plan and run activities for the rest of the camp. During the second week, the LITs will be assigned to a group of campers to shadow, assist, and learn more from experienced counsellors. They will receive ongoing feedback during the program, as well as a final report at the end of the two weeks to help them continue to grow and develop their skills. LITs are invited to be considered for employment at camp once they turn 16 years old.

This two-week program is available in weeks 3 & 4.



NEW

Medallion Leadership Program

The two-week program is offered to campers entering Grades 9 & 10. After registering, candidates will be emailed an application form in the spring. Successful applicants will be notified of their acceptance via email.

For the first time, the Medallion Leadership Program will give campers aged 13 and over the opportunity to participate in the LIT programming while simultaneously achieving their **bronze medallion certification.** This will give campers the opportunity to develop their leadership skills and potential in both our camp programs and the pool. In addition to following LIT programming, campers will spend time in the pool, where a certified instructor will lead the bronze medallion course. This program is for campers interested in becoming a counsellor and/or a lifeguard and swimming instructor.

This two-week program is available in weeks 5 & 6.

STEM ACADEMY

Who said learning can't be fun?

Based on our campers' growing demands for more STEM (science, technology, engineering, and math) opportunities, we are excited to be partnering with community partners, including STEM Minds and St. Andrew's College Makerspace program. These dynamic, high-interest, hands-on programs expand campers' minds, knowledge, and future career opportunities. Building on multiple interactive team environments, campers will explore individual interests and achieve goals that build confidence and expand their learning. Invest in your child's future!

SAC Camp STEM Academy includes:

- a full day of STEM challenges and competitions, and lunch in the dining hall
- dedicated STEM-focused staff who love exploring the world of technology and engineering
- dedicated STEM classrooms with laptops, robotics, 3D printers and scanners, and green screen equipment

STEM Minds

Code Breakers - Explore new skills and exciting challenges to advance your understanding of computers and programming, all while learning a new language, the language of coding! Get ready to take your skills to the next level as you dive into Python, get hands-on with Arduino, learn what makes a website work, and discover the creativity of code! Available in weeks 5 & 7.

Monday	Tuesday	Wednesday	Thursday	Friday
Coding with Python	Coding with Arduino	Web Design	Video Game Design	Robotics

eSports - eSports is quickly becoming one of the most popular career options for today's youth, but it's about so much more than playing video games; it is a thriving industry with many different roles and career opportunities. In this camp, we will do more than just become eAthletes; we will also explore many educational topics, including social skills and teamwork; branding, marketing, and business; health and wellness; technology; and more. Channel your gamer's passions in a positive team-based environment and prepare them with critical skills for the jobs of tomorrow! Available in weeks 4 & 6,

Monday	Tuesday	Wednesday	Thursday	Friday
Team Identity & Branding	Streaming & Content Creation	Health & Wellness	Coaching & Business	Final Tournament

Makerspace Magic

Campers will develop a maker mindset through project-based learning. They will work individually and collaboratively throughout the week. Campers will have the opportunity to learn how to use a variety of tools and techniques, including laser cutting with Adobe Illustrator, 3D printing with Tinkercad as well as some basic electronics.

Available in weeks 1-4.

Monday	Tuesday	Wednesday	Thursday	Friday
Team Building & Mini Projects	Team Building & Impossible Challenges	Start Building Project	Finish Building Project	Celebration Day
